

BARONET

Draper's Most Popular Electric Screen

The BARONET is a compact electric screen with the motor inside the roller. It is our most economical and most popular motorized screen. Universal mounting brackets make installation easy whether the BARONET is mounted on a wall, suspended or recessed above the ceiling. The Baronet's small case size will fit almost any space where a motorized screen is needed. The pentagonal steel case is finished in grey (standard), black or white. Select Fiberglass Matt White or Glass Beaded viewing surface. Three versions of the BARONET are available:

BARONET

Furnished with 3m power cord and 3-position in-line operating switch. Available with 110V or 220V motor.

BARONET/HW

Furnished with junction box and 3-position wall switch for recessed wall mounting. Available with 110V or 220V motor.

Baronet/HW or CE

BARONET/CE

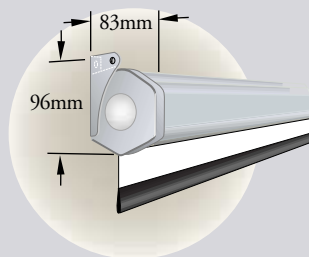

Furnished with terminal strip and white 3-position "European" style wall switch for surface mounting. 220V motor only.

DRAPER

PREMIER

With Perfectly Flat Surface

The PREMIER is designed specifically for video and data projection. A sophisticated tab tensioning system holds the viewing surface perfectly flat and wrinkle free. The projected image is framed at the sides by black masking borders (standard). The PREMIER is available with M1300 or M2500 front screen viewing surfaces. CINEFLEX surface is also available for rear projection. The PREMIER features quiet motor-in-roller design. It is suitable for either wall or suspended mounting.
